OBJECTIVE

Aspiring Mechanical Engineer seeking an internship opportunity at Global-Thaixon Precision Industry. Eager to apply CAD, manufacturing, and problem-solving skills while gaining hands-on experience in design, production, tooling, or quality engineering.

SCHOOL PROJECT

Formula Student Team Member

Aug 2023

- Designed and built a Formula Student race car, focusing on battery, chassis, and aerodynamics.
- Gained hands-on experience in fabrication, testing, and data analysis.
- Contributed to TSAE Auto Challenge: Student Formula 2024 in design, cost analysis, and dynamic events.

Mechanic of Machinery Project - Stair-Climbing Robot

Feb 2024

- Designed and built a prototype robot capable of climbing stairs.
- Optimized the drive system for efficiency and stability.
- Tested and analyzed the mechanism to improve performance.

Structural Analysis and Development of an Electric Vehicle for Frontal Impact Resistant

Nov 2025

- Conducted structural analysis and optimization of an electric vehicle using Finite Element Analysis (FEA).
 - Focused on crash resistance and energy absorption under frontal impact conditions.
 - Material optimization for improved energy absorption and passenger safety.
 - Utilized SolidWorks and ANSYS for design, stress analysis, and deformation evaluation.
-

EDUCATION

Suranaree University of Technology

Bachelor of Engineering in Mechanical Engineering

Expected Graduation: May 2026

Princess Chulabhorn Science High School Buriram

High School Diploma

2017 - 2022

SKILLS

- **Technical Skills:** Mechanical Parts Design, Mechanical System Analysis, Fabrication & Prototyping
- **Machining & Workshop:** Lathe, Milling, Drilling, Cutting, Measuring Tools (Vernier Caliper, Micrometer)
- **Software Skills:** SOLIDWORKS, CATIA, Ansys, MATLAB, Google Colab, AutoCAD, Python, Arduino IDE, Microsoft Office Suites
- **Languages:** English (communicative level), Thai
